Part III REASONS FOR ALLOWANCE

1. The following is an Examiner's Statement of Reasons for Allowance:

Applicant's arguments, taken in total and considering both the invention and the prior art as a whole, are convincing. The examiner found certain of the applicant's arguments to be particularly relevant. Namely, Beer is unconcerned with charge storage and breakdown voltage, whereas both Buice and the instant invention, being capacitors, are directly concerned with both. Beer is concerned with extending electrode lifetimes during electrolysis, which is not an issue in the capacitor art. There is therefore no nexus between Buice and Beer which would lead one skilled in the art to combine them.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
